Abstract

A short watercolor comic about the broken connection between humans and mountains. Funded by Sharing Science grants of the AGU, 2021
Something missing...
Andean cryosphere research comic

A short watercolor comic about the broken connection between humans and mountains.

Illustrations by: Sebastián Martínez Fadic
Concept by: Sebastián Ruiz-Pereira

AGU Sharing Science grant 2021
Centuries ago, in the High Andes...

The Ancient ones used to gather on high mountain tops...
Back then, Science & Religion were One!
But time passed, and something seems to be missing...

and humans lost their ability to connect to their surroundings...

Even though they try...

and try...

something seems to be missing...
This is the spot! In the middle of NOWHERE!

Hey, let's go. It's getting too cold...

Just a minute man!
