Repeating Crumley: Day 13

ANTHONY SALVAGNO

99.9% D2O

66% D2O

33% D2O

DI WATER
I'm leaning towards doing this trial for 2 more days because all the seeds are at/approaching max germination. Beyond day 15 I'll keep my eye on the D2O sample to see if there is any sprouting, but it looks like it is becoming a race against evaporation.
